

Interview 17 Dr. Waymon Hinson and the Black Farmers, Part 2

Greetings, Patriots, this is Perry Greene with GNA. Thank you so much for listening in today. We are going to continue our interview with Dr. Waymon Hinson. In our last segment, Dr. Hinson told us some of his background that prepared his heart for the work he is doing with righting some injustices in regard to Black Farmers. In this segment he will talk about some of the actual work he and others have done on their behalf. If you missed last week's interview, I would encourage you to go back and listen. Let's jump into our second segment of our interview with Dr. Waymon Hinson.

Conclusion

Thank you again for listening in today. It's been a real privilege for me to talk with Dr. Hinson about his work with Black Farmers. Next week we will invite Charla Hinson, Waymon's wife, to join Dr. Hinson and me and give her perspective on their fight against injustice. I hope you will listen in.

A great verse for this week's interview is **Amos 5:23-24** (NKJV):

**²³ Take away from Me the noise of your songs,
For I will not hear the melody of your stringed instruments.
²⁴ But let justice run down like water,
And righteousness like a mighty stream.**

I want to thank you, too for your continued support of GNA. Many of you are making regular financial donations, and I am grateful. Many of you are lifting us up in prayer. I especially thank you for the prayers. Your prayers have opened some doors to some key guests that I have had the privilege of interviewing.

To be honest, the GNA Ministry is the most exciting thing I have done in my career. It is bringing me into contact with some very godly people who care deeply about God's role in the future of America. Having God in America is the key to our future. Keep praying for another Great Awakening!

As we said last time, let's Keep The Light of Justice Burning!
